# Why Do I Have to Have an Audit?

# Audit Requirements

# Audit Determination Letter

**DATE:** November 25, 2013

**SUBJECT:** 2013 Single Audit Requirement, Office of Management and Budget Circular A-133

According to the Office of Management and Budget (OMB) Circular A-133, entities that expend more than \$500,000 in federal funds during a fiscal year are required to have a single (program specific) audit.

To determine the federal expenditures, we use:

Project Reporting Codes 421 through 798 as submitted on	
the Oklahoma Cost Accounting System (OCAS) expenditures:	<b>\$Federal Expenditures</b>
Commodities provided by the Oklahoma Department of Human Services:	<b><u>\$Commodities</u></b>
Total Expenditures:	<b><u>\$Combination</u></b>

If you feel this is incorrect, please contact our office immediately. Otherwise, we will expect your district's audit to comply with the requirements of OMB A-133. The auditors also have advised of districts that have been identified for the purposes of OMB A-133.

Additionally, OMB A-133 § 3052.320 states: "(a) General. The audit shall be completed and the data collection form described in paragraph (b) of this section and reporting package described in paragraph (c) of this section shall be submitted within the earlier of 30 days after receipt of the auditor's report(s), or **nine months after the end of the audit period**, unless a longer period is agreed to in advance by the cognizant or oversight agency for audit."

Therefore, your district's audit is due in our office no later than **Monday, March 31, 2014**.

Also, it is imperative that you include a copy of the Audit Acknowledgement Page along with the audit as stated in Oklahoma Administrative Code 210: 25-5-5 (6): "Each audit report must contain a signed Acknowledgement Page on a form supplied by the State Department of Education." The audit **will not** be considered as "complete and received" without the acknowledgement page.

We appreciate your consideration and cooperation in this matter. If you have any questions, please contact us at (405) 521-2517.

## Federal Program and Fiscal Compliance

Kay Townsend, Financial Analyst  
Title I, IIA, III, VI, & X  
Oklahoma State Department of Education  
(405) 522-3254  
[Kay.Townsend@sde.ok.gov](mailto:Kay.Townsend@sde.ok.gov)

# SEA/LEA Administrative Responsibilities

- An SEA and LEA shall comply with the state plan and applicable statutes, regulations, and approved applications.
- An SEA and LEA shall use federal funds in accordance with those statutes, regulations, plan, and applications. EDGAR § 76.700

# Program Compliance: Monitoring

- SEAs are responsible for managing the operations of LEA supported activities in order to verify compliance with federal requirements.
- Types of monitoring include:
  - HQT (all districts annually)
  - Consolidated Title I monitoring, three year cycle (approximately 181 districts annually)

# Program Compliance: Evaluation

- SEAs must meet the evaluation requirements of the specified program.
- Types of evaluation include:
  - McKinney-Vento, End of the Year Grant Cycle Evaluation
  - Neglected and Delinquent
  - MSP Annual Performance Report

# Program Compliance: Reporting

- A SEA may require a LEA to submit reports in a manner and format that assists the SEA in complying with the requirements and responsibilities under each program.
  - Title I Annual Report
  - Comparability Report
  - Neglected and Delinquent
  - Private School Information
  - Low-Income Student Count
  - Title I District Plans (every 5 years)
  - Schoolwide Plans

# Fiscal Compliance

- Three requirements are critical to the success of Title I, Part A because they ensure that the Federal investment has an impact on at-risk students the program is designed to serve. The focus is on the use of state and local resources to ensure there is a fair distribution of resources between Title I schools and non-Title I schools.
  - Maintenance-of-Effort
  - Comparability
  - Supplement, not Supplant

# Maintenance-of-Effort

- *At the district level*
- *A provision which requires that an LEA maintain a 90% level of it's expenditures for public education from State and local funds from one year to the next.*

# Failure to Meet Maintenance-of-Effort

- If an LEA fails to meet the MOE requirement, the SEA must reduce the amount of funds allocated under certain federal programs in the exact proportion by which the LEA fails to maintain.
- For example, in FY2012 an LEA had to expend no less than 90% of what it expended in FY2011 in order to maintain effort. If the LEA fails below the 90%, its FY2014 federal allocations are reduced by the percentage the LEA failed.

# Waiver

The Secretary may waive the MOE requirement if it is determined that:

- Exceptional or uncontrollable circumstances such as a natural disaster; or
- A precipitous decline in the financial resources of the LEA.

# Comparability

- At the building level
- Comparability requires that LEAs be able to document that services provided with state and local funds in Title I schools are comparable to those provided in non-Title schools.

# Comparability Measure

- Based on Pupil/Teacher Ratio
- Comparing the total average non-Title I pupil/teacher ratio to each Title I site or if all sites are Title I, then the average pupil/teacher ratio is compared to each Title I site.

# Supplement not Supplant

- At the student level
- Ensures services provided with Title I resources cannot replace, or supplant, services that a LEA would ordinarily provide to all students.

# Fiscal Flexibility Options

- **Transferability-** allows LEAs to transfer up to 100% of the funds they receive under certain Federal programs to other programs that can more effectively address the district's needs.

However, there is a limitation on the 100 percent transferability for Title II, Part A. ESEA Section 9501(b)(3)(B) requires an LEA to provide, at a minimum, equitable services to private schools teachers and students based on an amount of the LEA's overall allocation under Title II, Part A.

- **Consolidated Administrative Funds-** allows LEAs to consolidate 5, 7, or 8 percent (based on ADA) of its funds to a unique project code in order to carryout administrative duties.

# Period of Availability of Funds

- LEAs and SEAs must obligate funds during the 27 months extending from July 1 of the fiscal year for which the funds were appropriated through September 30 of the second following fiscal year. This maximum period includes a 15 month period of initial availability plus a 12-month period for carryover. This extra 12 months is called the Tydings period.

# Period of Availability

- Period of availability for FY2012 funds for school year 2011-2012 is 27 months, beginning July 1, 2011 and ending September 30, 2013.

## Example

**Current year funds are FY2012 funds in FY2012**

**7/1/11-6/30/12      12 months**

**LEA 1<sup>st</sup> year carryover funds are FY2012 funds in FY2013**

**7/1/12-6/30/13      12 months**

**LEA 2<sup>nd</sup> year carryover funds are FY2012 funds in FY2014**

**7/1/13-9/30/13      3 months**

**27 months**

# Carryover Funds

- Section 421(b) of the General Education Provisions Act (GEPA), states an LEA that does not obligate all of the Title I, Part A funds allocated to it for a given fiscal year may carryover the unobligated funds and obligate them during the following fiscal year.
- Although the Tydings amendment extends the period for obligating funds for an additional 12 months, Section 1127(a) of the ESEA limits the amount an LEA can carryover from one fiscal year to the next.

# Carryover Funds

- An LEA that receives \$50,000 (including CY funds transferred into Title I) or more in Title I, Part A funds cannot carry over beyond the initial 15 months of availability more than 15 percent of its Title I, Part A funds.
- LEAs that carry over more than 15 percent of their Title I funds must request a waiver and complete the 9/30 report.
- An SEA may grant a waiver of the percentage limitation once every three years if the LEA's request is reasonable and necessary.

# Independent Audit Findings

- Title I has received from Financial Accounting 26 audit findings
- Common Findings
  - OCAS data overstated/understated did not match amount actually paid from the federal program
  - Equipment purchased with federal funds not properly labeled as required by federal program guidelines (OMB A-87)
- Corrective Action Response
  - May require LEA to provide additional information/documentation

# Helpful Suggestions and Reminders

## To insure prompt reimbursement:

**We are requesting that monthly claims be submitted beginning with July 2013. (even if it is a zero dollar claim)**

- It would be helpful to reconcile the submitted claims periodically (i.e. monthly/quarterly) to avoid any “year-end rush “ for reimbursements.
- Reconciliation should include:
  - ✓ Making sure each month (July-June) has been submitted and approved for reimbursement for amount submitted.
  - ✓ Checking frequently that there are no pending claims in the “**Returned for Changes**” status. (This will delay your reimbursement )

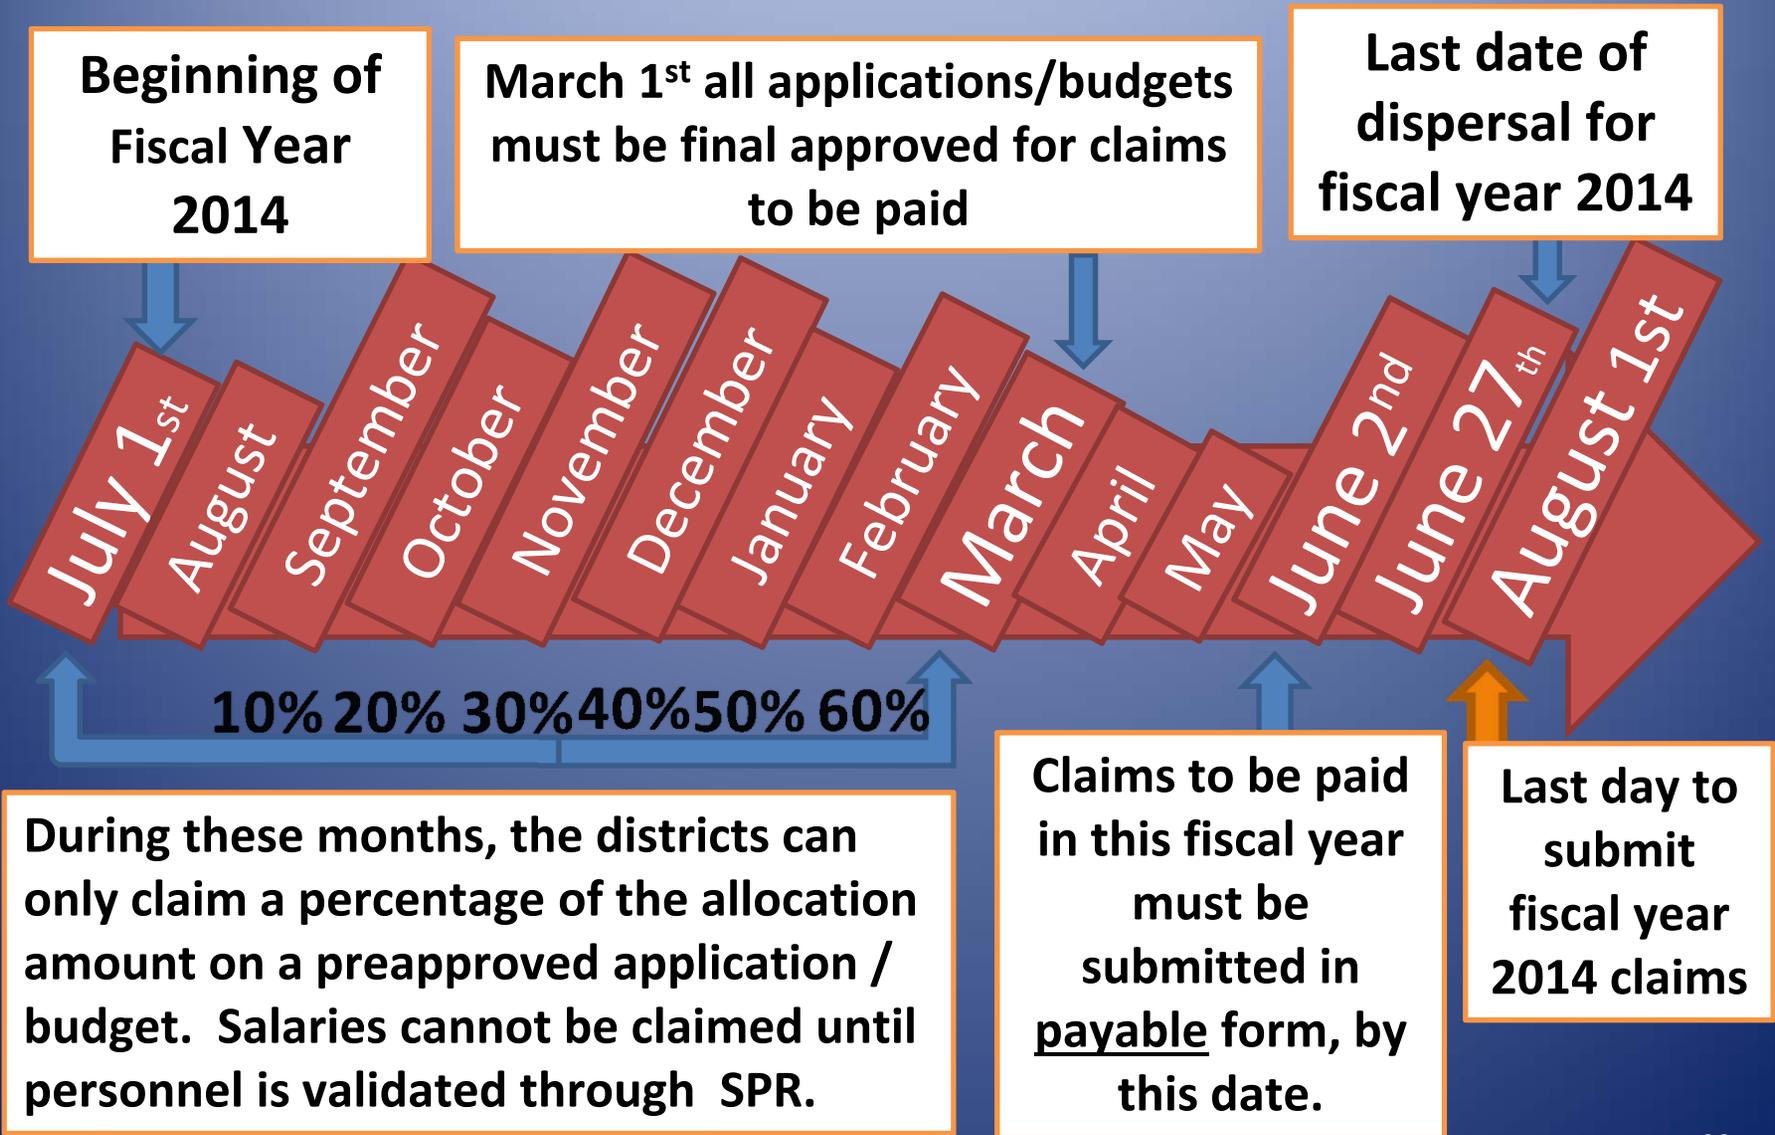

TUTORS,SUBS AND STIPENDS must all be budgeted.

- TUTORS - must be highly qualified and listed on personnel page. (Tutoring is before and after school, not during regular contract hours).
- SUBSTITUTES - by name DO NOT have to be listed on the application, but they must be referenced on the application. Documentation should be submitted for allowable professional development the teachers attended.
- STIPENDS - must be referenced on the application with as much detailed information as possible as to how the stipends will be used. Backup documentation for stipends must be provided. (i.e., sign-in sheets, and agenda for allowable training, etc.).
- Please use correct OCAS coding when entering the function/object codes. (i.e. 1000-100 is salary and 1000-200 is benefits, etc.). It must align with your approved final application to claim as a reimbursement.

Remember as of July 1, 2011, Child Nutrition has added different codes in order to determine if the district has adequately subsidized its Child Nutrition funds and also to ensure that schools are not using their Child Nutrition reimbursement for anything but the reimbursable meals. Therefore, we are tracking a la carte sales and revenue separately, and adult meals expenditures and revenues separately.

Use project 000 with local money. Assign local project 001-298

Use project 385 with state money.

Use project 763-769 with federal money.

Use Function Codes 3110-3190 for all Child Nutrition expenditures.

All Child Nutrition expenditures and revenue must have program 700.

**Fiscal Year 2014 OCAS Manual is now online on the financial accounting website.**
